Bengaluru, India

PROFESSIONAL SUMMARY

Frontend Developer with 2.5+ years of experience building scalable, high-performance web applications using React and Redux. Strong expertise in component-driven development, UI performance optimization, and translating complex requirements into intuitive user experiences. Proven experience owning frontend features end-to-end in production systems used globally.

EXPERIENCE

- **Senior Software Developer** June 2025 – Present
illumine Technology Inc Bengaluru, India
 - Led frontend architecture and implementation for high-impact features used by schools across 50+ countries, ensuring scalable and maintainable UI systems
 - Built and integrated React-based WhatsApp communication interfaces using Netcore Meta API, enabling real-time lead engagement and reducing response time by 60%
 - Designed complex invoicing and billing user interfaces supporting multi-payer workflows and subsidy tracking with clear UX for non-technical users
 - Implemented real-time billing views with optimized data rendering and state management for instant financial visibility
 - Collaborated closely with design and backend teams to deliver performant, accessible, and responsive frontend experiences
- **Software Developer** July 2023 – June 2025
illumine Technology Inc Bengaluru, India
 - Developed responsive and accessible frontend for the EYFS assessment module, converting complex educational logic into intuitive React components
 - Implemented voice messaging UI within parent communication module, increasing user engagement by 35%
 - Built reusable UI components and shared frontend utilities to improve consistency across multiple modules
 - Delivered 15+ frontend-heavy features including unified school calendar, redesigned parent portal UI, and notification interfaces
 - Worked extensively with React, Redux, JavaScript, HTML5, and CSS3 to build production-grade user interfaces
- **Associate Software Engineer Intern** January 2023 – June 2023
Tekion Corp Bengaluru, India
 - Developed 20+ reusable React components for Tekion Universal Component Library with Storybook documentation
 - Focused on component-driven development, responsiveness, and UI consistency following atomic design principles
 - Strengthened expertise in React Hooks, Redux state management, and scalable frontend architecture

TECHNICAL SKILLS

Frontend: React.js, Redux, JavaScript (ES6+), HTML5, CSS3, Responsive Design

Backend: Node.js, RESTful APIs, Express.js

Databases: SQL, PostgreSQL, MySQL

Tools & Platforms: Git, Storybook, Postman, Google Cloud Platform

Integrations: WhatsApp Business API, Xero API, Netcore Meta API

EDUCATION

- **Bachelor of Technology (B.Tech), Computer Science** August 2019 – June 2023
The LNM Institute of Information Technology Jaipur, Rajasthan

ACHIEVEMENTS

- Solved 775+ algorithmic problems across Codeforces, LeetCode, and CodeChef, demonstrating strong problem-solving skills
- Codeforces Rating: 1225 — LeetCode Rating: 1599
- Secured Global Rank 335 in CodeChef Starters 50
